3. Getting Started

For start we will give some tips to you:

- In the Moodle config.php file, add line \$CFG->defaulthomepage = 1 for set My Homepage the default page after login.
- Before use Portal settings panel, activate the Moodle Theme designer mode in Site administration -> Appearance -> Themes -> Theme Settings. If this not activated the colors not will change.

4. Installing

Install Portal is so simple. You just need 3 steps and the Portal will be installed.

- 1 - Unzip the app/portal.zip file
- 2 - Copy the portal folder and paste on youmoodleroot/theme/
- 3 - In Moodle will appears a message to install theme, click ok.

So, are just this! Now the PortalTheme was installed on your Moodle. You can enjoy the new experience on Moodle.

5. Theme Options

Now you will learn to personalize the Portal of your way.

First, always before you open Portal Settings Panel, you should activate the Moodle Theme Designer Mode.

You can do this in: *Site Administration -> Appearance-> Theme -> Theme settings* and activate the **Theme Designer Mode**. After your use the Portal Panel you can deactivate the Theme Designer Mode for more performance.

You can access the Portal Settings Panel at *Site administration -> Portal* or *Site administration -> Appearance -> Theme -> Portal*.

The Portal Settings Panel is divided in 6 categories: General, Header, Footer, Footer Modules, Frontpage and Social Media.
